ELLYN CARDON

March 2024

Manager of the Month

Meet Ellyn Cardon

We love having Ellyn on the exhibits team! She is welcoming and considerate of others. She is always looking to do the best work possible. She has been on the exhibits team for just over 3 years. Since that time, she has made significant contributions that have helped the team and the work we do. She has a passion and a skill for organization and process. The work we do is often chaotic and challenging.

Ellyn is great at putting structure to the chaos and meets the challenges with determination. If there is a problem to be solved, it's a pretty good bet that Ellyn knows about it and is either setting up a meeting or sending out an email to try and solve it. Most recently she has developed a set of documents that outlines the exhibit project process in a very systematic and structured way that has helped us plan our work more efficiently. She also tracks the many projects we have and keeps everyone up to speed on their progress. She recently took on the responsibility of supervising the exhibit managers and has so far done an excellent job. To sum it all up, Ellyn is pretty awesome!

Thank you!
