# Manager of the Month

## Meet Logan,

As Senior Manager of Learning & Engagement, Logan demonstrates a deep commitment to encouraging and developing his team. Drawing on his experience co-creating the learning and engagement outreach program from the ground up, he consistently shows up for guides and specialists alike—checking in, offering encouragement, and creating meaningful connections that help others feel seen, valued, and supported.

A steady shepherd for the team, Logan fosters confidence, empowers excellence, and strengthens relationships across departments with empathy, thoughtfulness, and care. Whether aligning schedules to support staff well-being, stepping in when extra help is needed, or hiring, onboarding, and mentoring dynamic staff, he approaches every responsibility with curiosity, confidence, and heart.

Shaped by his experiences living in Japan and guided by a deep admiration for Gandhi's example, Logan brings wisdom and humor to his leadership. A devoted partner to Leah, proud cat lover, champion of the Peninsula Mindset, and affectionately known by many as both the team's "work mom" and "the Sorcerer Supreme of the Majocracy" he helps create a workplace defined by imagination, safety and joy.

*Thank you!*
