Team Member of the Month

Meet Kate,

Kate has been a significant addition to the School Programs team on L&E. As the Field Trip Specialist, her role requires exceptional organization, constant collaboration, and endless patience. Kate not only exceeded those expectations, but she also brings her own unique energy and genuine passion for her work each day. She is deeply committed to creating meaningful STEM experiences for all students and is a wonderful facilitator who inspires excitement through discovery. Kate especially values the accessibility Thanksgiving Point provides to schools through its role as an ISEE organization, and she is driven by the impact those opportunities have on students and educators alike.

Having visited Thanksgiving Point many times throughout her childhood, working here has become a meaningful full-circle experience for Kate. She now has the opportunity to help create the same memorable and inspiring experiences for today's students that she once enjoyed herself. And, of course, one of her favorite parts of the job is handling cockroaches with the kids.

Kate loves like to be outside as much as possible! She has a goal to visit all the national parks in the U.S. and is visiting 4 more this summer. She loves to run and is training for another half marathon at the end of June. Kate is currently studying to earn a degree in Child Developmental psychology and has a genuine passion for helping and mentoring youth. Our team is very grateful that she chose to work here!

Thank you!

KATE NICHOLSON
