

Tulips Journey North

While time and travel will not allow Thanksgiving Point to visit every public 3rd grade in every school each year, teachers can expect in-person visits from us every three years. The other years you can be self-directed by following our lesson plans. Even on years without a personal visit you can receive tulip bulbs and resources upon request to plant the tulips on your own, courtesy of Thanksgiving Point and the iSEE group. Please see the table below to find your visit year:

What if I missed my scheduled visit year or want to be involved sooner?

Thanksgiving Point wants you to be involved! We would love to have you jump in even if we cannot visit you the year you start. We will provide the materials and any additional support you need to be able to understand and facilitate the program on your own until we can visit you. If you missed this year's visit or have other concerns, feel free to contact us and we will gladly work out the best solution possible.

If you choose to facilitate the program on your own, you can find the Activity Plans on our website. For tulip bulbs to dissect and plant contact Michele Gunnell at mgunnell@thanksgivingpoint.org with the number of 3rd grade students participating, number of 3rd grade classes this includes, your school's name, school's mailing address, and district.
